ABOUT US

Alpha Lime, headquartered in Tanga, Tanzania, produces high-quality lime under the brand name PODA PLUS.

PODA PLUS is a Hydrated Lime Powder specifically designed to help gold plant chemists working in VAT leaching and CIP/CIL leaching plants raise pH safely and reliably, while ensuring fast and cost-effective availability.

MISSION, VISION & VALUES

MISSION

To help gold plant chemists improve the efficiency of their leaching process by assisting them in raising pH through reliable, safe, and cost-effective products.

VISION

To ensure every gold plant chemist worldwide has fast, affordable access to pH solutions that consistently deliver safe and reliable results.

OUR CORE VALUES

Integrity: “We act with fairness, transparency, and ethics in all we do.”

Honesty: “We are accountable, consistent, and trustworthy.”

Customer First: “We prioritize our customers’ needs and satisfaction.”

OUR PRODUCT

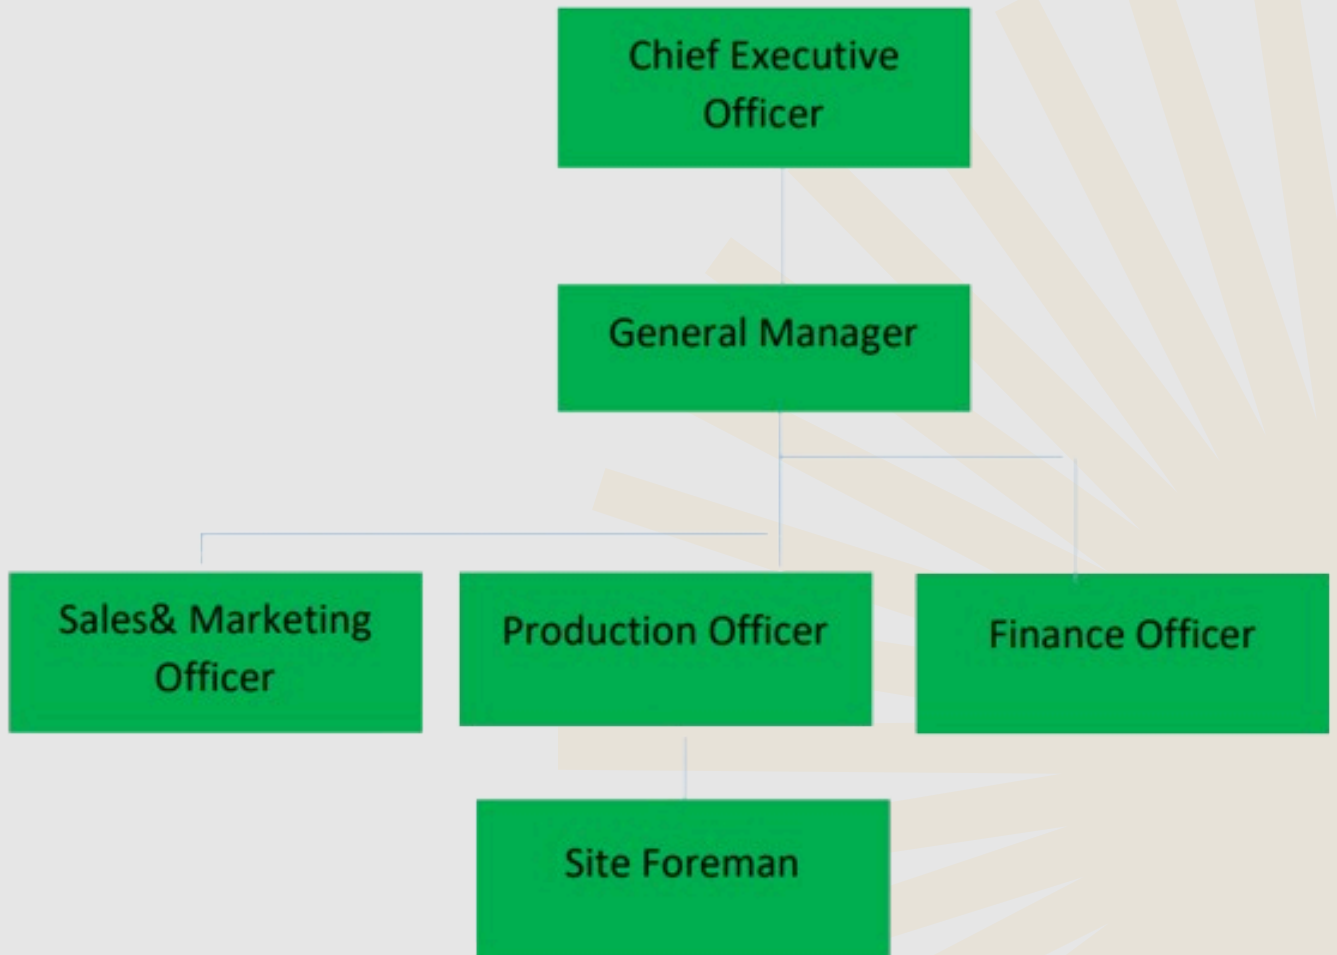

PODA+ LIME

PODA+ is a reliable and affordable high-calcium lime product specially formulated for pH adjustment in gold leaching operations.

It is finely processed to produce a uniform, highly soluble powder that mixes easily and delivers fast, consistent pH control. Packaged in moistureproof PP woven bags, PODA+ stays dry, clean, and easy to handle even in challenging environments.

OUR STRUCTURE

OUR PROMISE TO YOU

We don't just sell lime — we deliver predictable pH results. When you partner with Alpha Lime, you get:

CONSISTENT QUALITY

Top-grade calcium oxide and calcium hydroxide that mixes easily, ensuring fast and effective pH adjustment.

RELIABLE DELIVERY, EVERY TIME

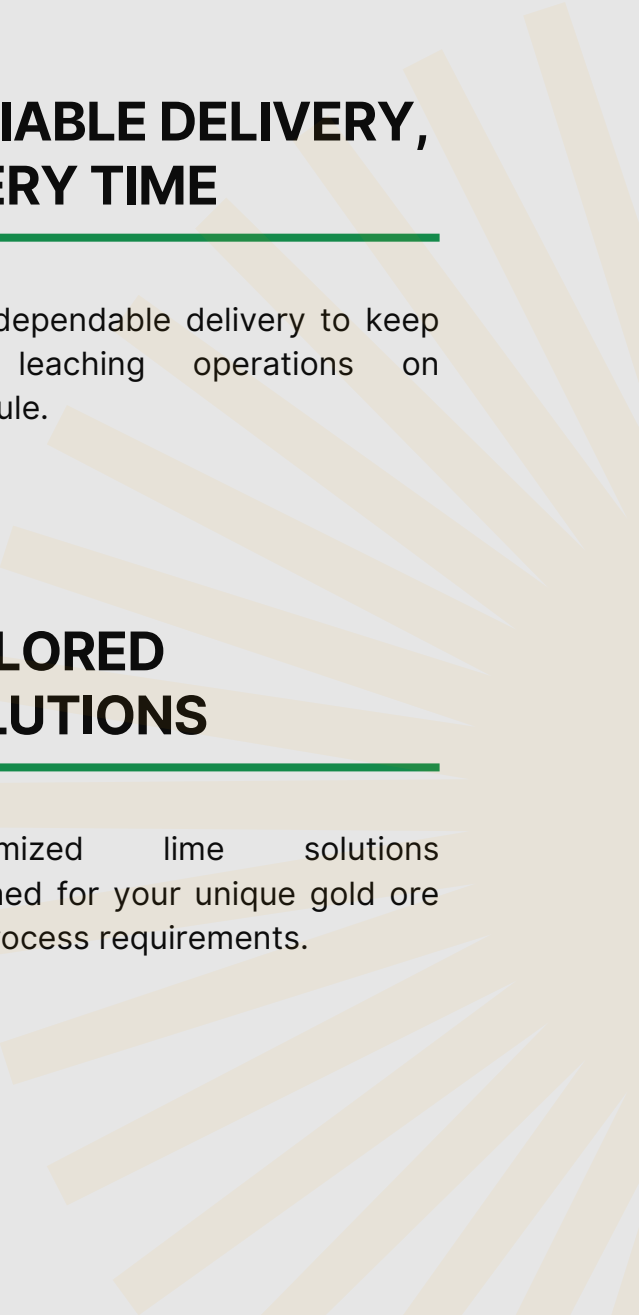

Fast, dependable delivery to keep your leaching operations on schedule.

CUSTOMER SUPPORT THAT CARES

Expert guidance to solve challenges and optimize your leaching processes.

TAILORED SOLUTIONS

Customized lime solutions designed for your unique gold ore and process requirements.

OUR TRUSTED PARTNERS

Trusted by Over 1000+ Experts, Chemists & Mining Companies:

TESTIMONIALS

Read these honest testimonies from our customers and see for yourself.

"Alpha Lime has been a game-changer for our gold extraction process. The quick pH adjustment saves us time and reduces cyanide wastage. We're seeing better results and safer operations."

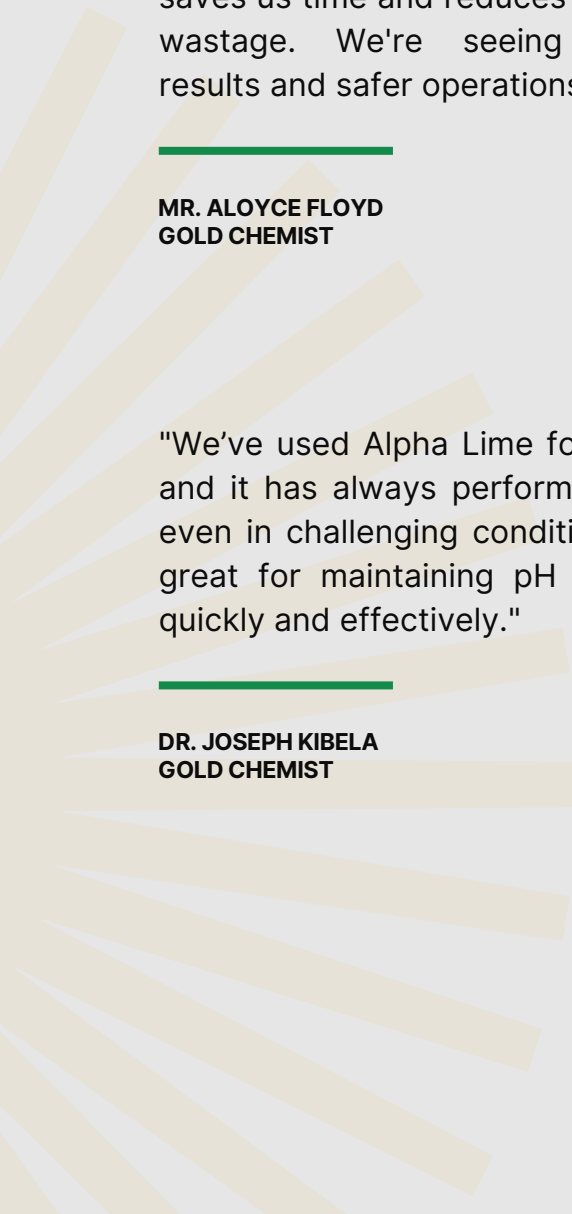

MR. ALOYCE FLOYD
GOLD CHEMIST

"What stands out is the level of customer service. Alpha Lime not only delivers quality products but also offers excellent support, helping us optimize our processes."

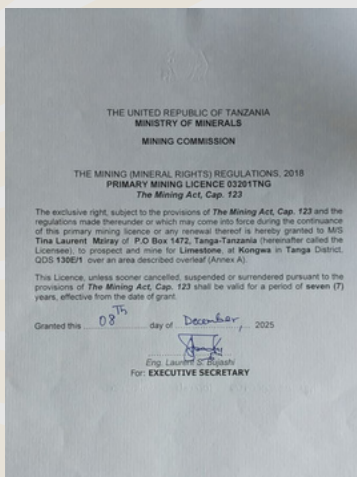

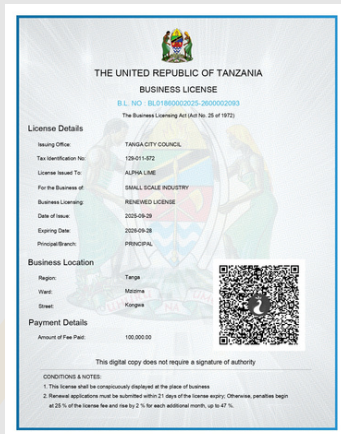

MS. VICTORIA SENZO
ELUTION PLANT SUPERVISOR

"We've used Alpha Lime for years, and it has always performed well, even in challenging conditions. It's great for maintaining pH balance quickly and effectively."

DR. JOSEPH KIBELA
GOLD CHEMIST

OUR ACCREDITATIONS

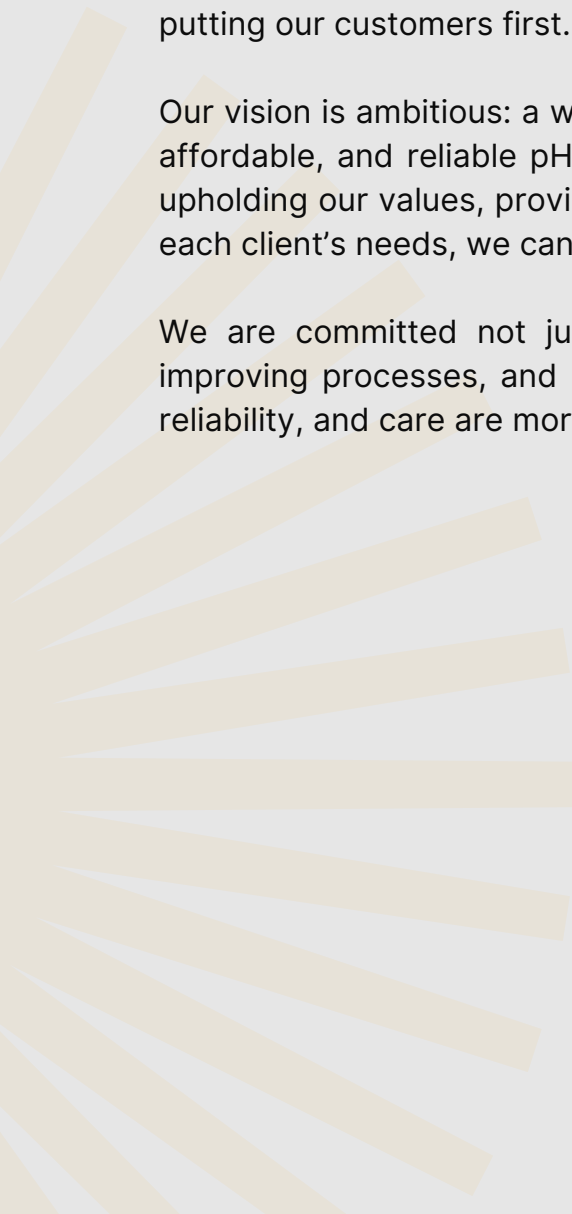

WORD FROM OUR FOUNDER&CEO

At Alpha Lime, our mission is simple: to help gold mine chemists optimize leaching safely and cost-effectively. Every day, we strive to make this mission a reality by delivering reliable pH solutions, built on a foundation of integrity, honesty, and putting our customers first.

Our vision is ambitious: a world where every gold plant chemist has access to safe, affordable, and reliable pH solutions for leaching. We believe that by consistently upholding our values, providing predictable results, and offering support tailored to each client's needs, we can make this vision a reality.

We are committed not just to supplying lime, but to empowering our clients, improving processes, and building long-term partnerships. At Alpha Lime, quality, reliability, and care are more than promises—they define who we are
